

*Memorandum*

S-157/DI-2A

TO : Distribution List

DATE: 3 JAN 1975

FROM : DI

SUBJECT: Strategic Warning Staff Action Group

1. The National Indications Center (NIC) and the USIB Watch Committee are being phased out. Their functions will be assumed by the Strategic Warning Staff (SWS), which will be collocated with the NMIC. I will serve as Special Assistant for Warning to the DCI and will direct the activities of the SWS. Target date to begin operations is 3 March 1975.

2. To facilitate a smooth transition and to ensure that all aspects of the change are accomplished, it will be necessary for several divisions within the Directorate for Intelligence to become involved. The Strategic Warning Staff Action Group is therefore established and is directed to implement any tasking necessary to meet the established target date.
